Gas Generators

ENERGETICS

PROPELLANTS

## OVERVIEW

General Dynamics Ordnance and Tactical Systems (GD-OTS) is the recognized leader in low cost, low energy, low burnrate, high energy propellants suitable for actuator control, guidance control and engine start cartridges for use in your specific programs. We have more than 30 years experience in development and production of solid propellant products.

GD-OTS delivers gas generators ranging in propellant charge weights of a few milligrams up to several pounds. We also offer complete and fully integrated design, analysis, fabrication and test capabilities with proven program experience spanning the complete range of munitions, delivery vehicles and deployment systems for military, space, and commercial customers.

## MISSILE GUIDANCE

Gas Generators

### SOLID PROPELLANT PRODUCTS

1. MINUTEMAN II RC	Gas Generator
2. MINUTEMAN II TVC	Gas Generator
3. TRIDENT C4 TVC	Gas Generator
4. TRIDENT C4 TVC	Gas Generator
5. MXU-4 A/A (Aircraft Engine)	Starter Cartridge
6. CHAPARRAL	Servo Control Gas Generator
7. SIDEWINDER AIM-9P	Servo Control Gas Generator
8. PAVEWAY II	Servo Control Gas Generator
9. SIDEWINDER AIM-9 L/M	Servo Control Gas Generator
10. F-104 - Aircraft Engine	Actuator Assembly
11. BIG EYE	Binary Bomb Gas Generator
12. MX PEACEKEEPER EEC	Gas Generator
13. MX PEACEKEEPER TVA	Gas Generator
14. LUU-10/B	Rescue Marker (Red Smoke)
