

1.0 Requirements

Mylar ® and Biaxially oriented Polyethylene Terephthalate (BoPET) Products such as films, tapes, end laminations and insulators (with or without friction coating) shall not be subject to shelf life requirements, unless clearly required and indicated on the engineering drawing or explicitly directed via a Purchase Order requirement.

If any documentation, including first article reports, certificates of conformance, packing slips or others refers to a limited shelf life for these materials, then the limited shelf life shall not apply and shall not limit stocking duration or use for General Dynamics products.

2.0 Revision History

Revision	Release Date (MM/DD/YYYY)	Change Description
