

155MM ERA-HE

Extended Range
High Explosive
Projectile

155H
TNT
PROJECTILE
155ERA-HE
W/SUPPL CHG

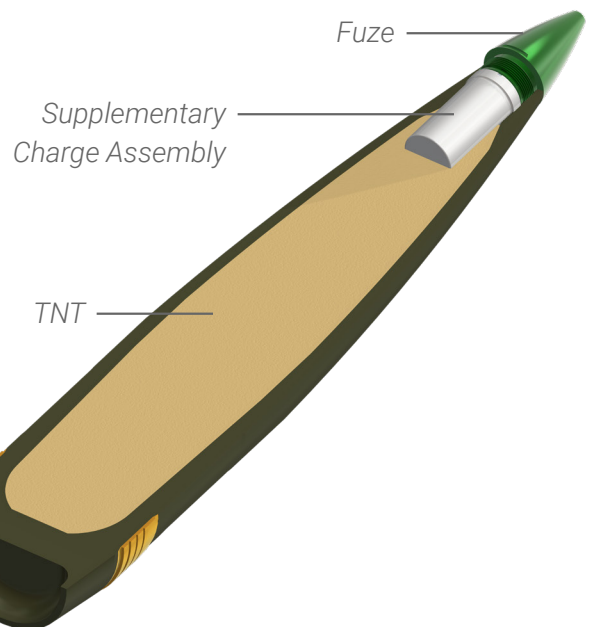

MUNITIONS

ARTILLERY

KEY FEATURES

- » Achieves maximum ballistic range for a hollow-base-projectile
 - + Optimized for 52cal Cannons
- » Interoperable with all JBMoU Weapon and Propelling Charge configurations
- » Unmatched lethality
 - + High fragmentation steel body
 - + Maximum energetic payload
- » **Immediately available capacity**

155MM ERA-HE

Extended Range
High Explosive Projectile

TECHNICAL DATA

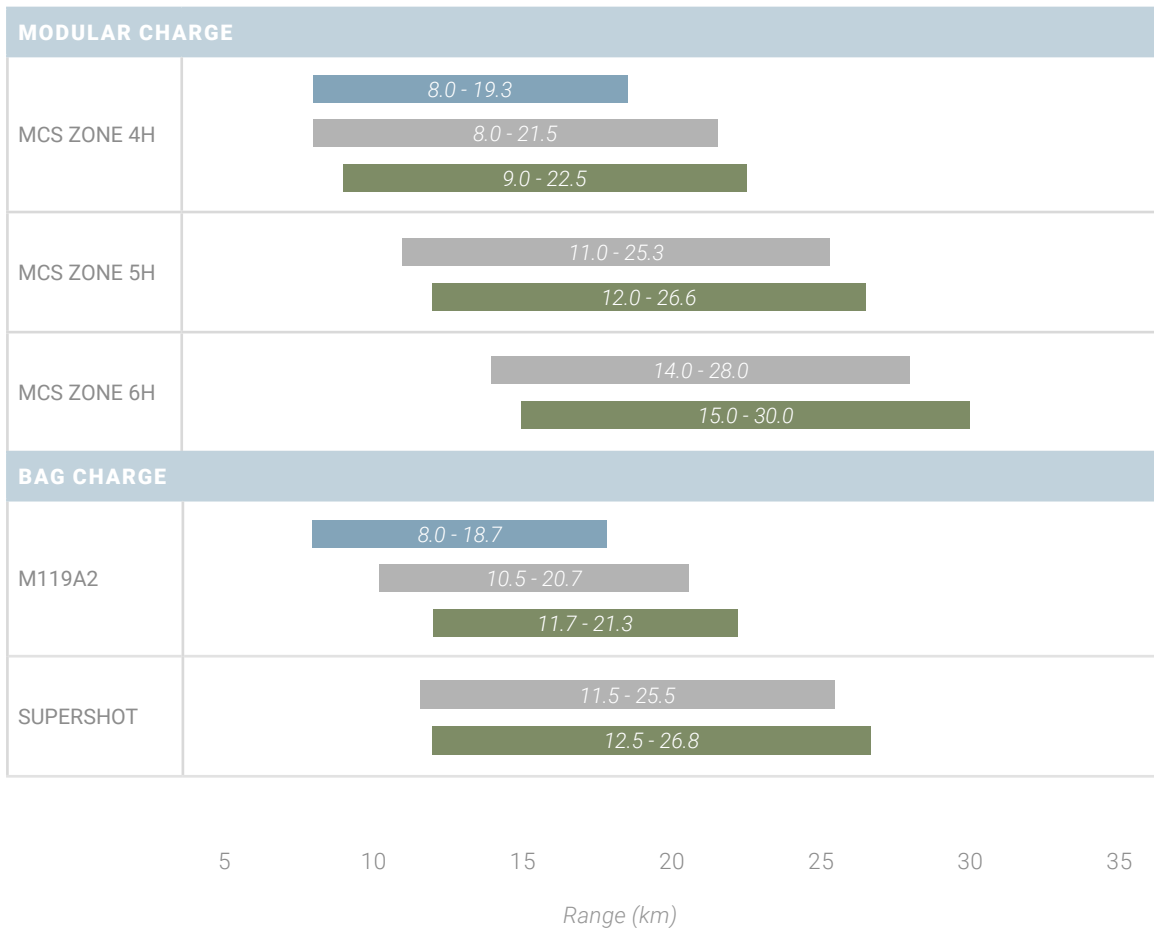

Length with Fuze	33.2"
Weight	<99lb
Explosive Fill	22lb of TNT
Max Range	30km, Zone 6H
Body Material	HF-1 Steel

52cal Range Tables

M107

M795

155MM ERA-HE

Data shown is based on a combination of ballistic firing data and engineering simulation. The provided ranges shall be considered general guidance. Actual ranges are impacted by several variables beyond nominal projectiles and propelling charges.
