

30MM GAU-8/A

PGU-13/B HEI
PGU-14/B API
PGU-15/B TP

MUNITIONS | **MEDIUM CALIBER**

General Dynamics Ordnance and Tactical Systems' 30mm GAU-8/A ammunition was the most effective ammunition used in Operation Desert Storm. Performance has been proven against all targets, including tanks, armored and light vehicles.

- Not only combat effective, but cost effective, the PGU-15/B is the lowest cost target practice cartridge of this caliber in the world
- The 30mm x 173 family has been used in the GAU-8/A Gatling Gun, the Goalkeeper CIWS, and the Bushmaster II. Derivatives of the 30mm x 173 GAU 8/A family are developed and qualified by General Dynamics for use in the 30mm Mauser Model F Gun Systems

For over a century, our customers have been receiving more than a product. General Dynamics Ordnance and Tactical Systems provides quality, service, reliability, performance and technology development. In fact, we are the U.S. leader in multi-purpose and kinetic energy medium caliber ammunition technology. Our medium caliber research and development programs push the state-of-the-art in ballistics, performance and cost effectiveness in production.

Our TP round is ballistically matched to our API and HEI rounds, and provides cost-effective training for Goalkeeper and other 30mm x 173 cartidges. Today, more than 100 million rounds have been produced by General Dynamics Ordnance and Tactical Systems.

PGU-13/B - High Explosive Incendiary (HEI)

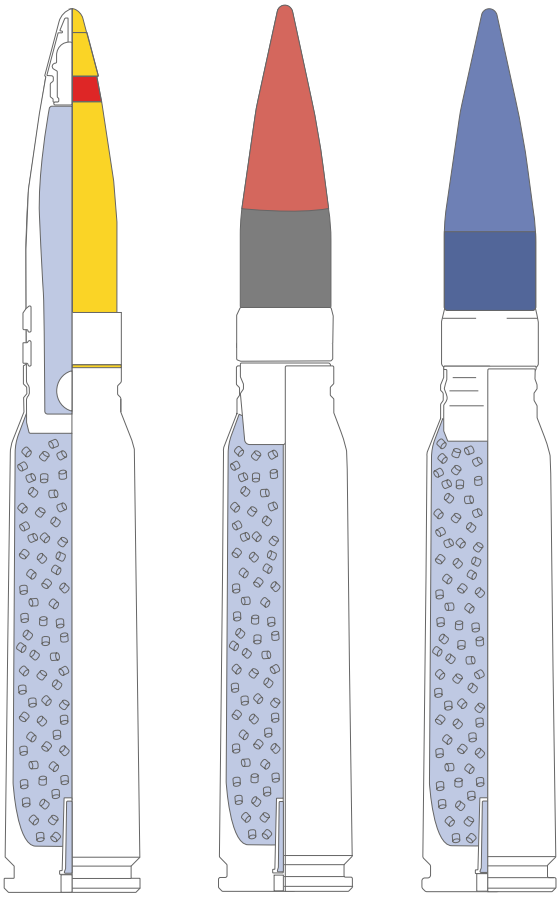

» Provides fragmentation and incendiary effects for use against personnel, trucks, ammunition storage, and many other targets

PGU-14/B - Armor Piercing Incendiary (API)

» The high density penetrator provides excellent armor penetration capability and after-armor effects against tanks and armored personnel carriers

PGU-15/B - Target Practice (TP)

» A ballistically matched, low-cost TP cartridge for use in training, weapons testing, and aircraft systems checkout
